This brochure provides information about the qualifications and business practices of Dominguez Wealth Management Solutions, Inc. If you have any questions about the contents of this brochure, please contact us at (757) 645-9252 or jeffrey.dominguez@dominguezwms.com. The information in this brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Registration with the SEC or with any state securities authority does not imply a certain level of skill or training.

Additional information about Dominguez Wealth Management Solutions, Inc. also is available on the SEC's website at www.adviserinfo.sec.gov. You can search this site by a unique identifying number, known as a CRD number. Our firm's CRD number is 173083.

Item 2 Material Changes

We have the following material change to report since the last annual filing of this brochure that occurred on March 31, 2021:

- Since we have over \$100 million in regulatory assets under management, we have transitioned our registration as an investment adviser with the State of Virginia and other states to the U.S. Securities and Exchange Commission.
- We also provide tax planning and preparation services (Item 10).

Item 4 **Advisory Business**

Dominguez Wealth Management Solutions, Inc. is an SEC-registered investment adviser with its principal place of business located in Virginia. Dominguez Wealth Management Solutions, Inc. began conducting business as an investment adviser in 2014.

Listed below are the firm's principal shareholders (i.e., those individuals and/or entities controlling 25% or more of this company).

- Jeffrey P. Dominguez, President
- Patrick G. Schultz, Chief Investment Officer

Dominguez Wealth Management Solutions, Inc. (hereinafter “DWMS” or “firm” or “we”) offers the following advisory services to our clients:

INVESTMENT MANAGEMENT

Our firm provides continuous advice to a client regarding the investment of client funds based on the individual needs of the client. Through personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy and create and manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background.

We manage these advisory accounts on a discretionary and non-discretionary basis. Account supervision is guided by the client's stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax considerations.

Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company and will generally include advice regarding the following securities:

- Exchange-listed securities
- Securities traded over-the-counter
- Foreign issuers
- Warrants
- Corporate debt securities (other than commercial paper)
- Commercial paper
- Certificates of deposit
- Municipal securities
- Variable life insurance

- Variable annuities
- Mutual fund shares
- United States governmental securities
- Options contracts on securities
- Options contracts on commodities
- Futures contracts on tangibles
- Futures contracts on intangibles
- Interests in partnerships investing in real estate
- Interests in partnerships investing in oil and gas interests

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

FINANCIAL PLANNING

We provide financial planning services. Financial planning is a comprehensive evaluation of a client's current and future financial state by using currently known variables to predict future cash flows, asset values and withdrawal plans. Through the financial planning process, all questions, information and analysis are considered as they impact and are impacted by the entire financial and life situation of the client. Clients purchasing this service receive a written report which provides the client with a detailed financial plan designed to assist the client achieve his or her financial goals and objectives.

In general, the financial plan can address any or all of the following areas:

- **PERSONAL:** We review family records, budgeting, personal liability, estate information and financial goals.
- **TAX & CASH FLOW:** We analyze the client's income tax and spending and planning for past, current and future years; then illustrate the impact of various investments on the client's current income tax and future tax liability.
- **INVESTMENTS:** We analyze investment alternatives and their effect on the client's portfolio.
- **INSURANCE:** We review existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home and automobile.
- **RETIREMENT:** We analyze current strategies and investment plans to help the client achieve his or her retirement goals.
- **DEATH & DISABILITY:** We review the client's cash needs at death, income needs of surviving dependents, estate planning and disability income.

- ESTATE: We assist the client in assessing and developing long-term strategies, including as appropriate, living trusts, wills, review estate tax, powers of attorney, asset protection plans, nursing homes, Medicaid and elder law.

We gather required information through in-depth personal interviews. Information gathered includes the client's current financial status, tax status, future goals, returns objectives and attitudes towards risk. We carefully review documents supplied by the client, including a questionnaire completed by the client, and prepare a written report. Should the client choose to implement the recommendations contained in the plan, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or stockbroker. Implementation of financial plan recommendations is entirely at the client's discretion.

We also provide general non-securities advice on topics that may include tax and budgetary planning, estate planning and business planning.

Typically, the financial plan is presented to the client within 2 weeks of the contract date, provided that all information needed to prepare the financial plan has been promptly provided.

Financial Planning recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. All recommendations are of a generic nature.

CONSULTING SERVICES

Clients can also receive investment advice on a more focused basis. This may include advice on only an isolated area of concern such as estate planning, retirement planning, or any other specific topic. We also provide specific consultation and administrative services regarding investment and financial concerns of the client.

Consulting recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. All recommendations are of a generic nature.

PENSION CONSULTING SERVICES

We also provide several advisory services separately or in combination. While the primary clients for these services will be pension, profit sharing and 401(k) plans, we offer these services, where appropriate, to individuals and trusts, estates and charitable organizations. Pension Consulting Services are comprised of four distinct services. Clients may choose to use any or all of these services.

Investment Policy Statement Preparation (hereinafter referred to as "IPS"):

We will meet with the client (in person or over the telephone) to determine an appropriate investment strategy that reflects the plan sponsor's stated investment objectives for management of the overall plan. Our firm then prepares a written IPS detailing those needs and goals, including an encompassing policy under which these goals are to be achieved. The IPS also lists the criteria for selection of investment vehicles as well as the procedures and

timing interval for monitoring of investment performance.

Selection of Investment Vehicles:

We assist plan sponsors in constructing appropriate asset allocation models. We will then review various mutual funds (both index and managed) to determine which investments are appropriate to implement the client's IPS. The number of investments to be recommended will be determined by the client, based on the IPS.

Monitoring of Investment Performance:

We monitor client investments continually, based on the procedures and timing intervals delineated in the Investment Policy Statement. Although our firm is not involved in any way in the purchase or sale of these investments, we supervise the client's portfolio and will make recommendations to the client as market factors and the client's needs dictate.

Employee Communications:

For pension, profit sharing and 401(k) plan clients with individual plan participants exercising control over assets in their own account ("self-directed plans"), we also provide quarterly educational support and investment workshops designed for the plan participants when the plan sponsor engages our firm to provide these services. The nature of the topics to be covered will be determined by us and the client under the guidelines established in ERISA Section 404(c). The educational support and investment workshops will NOT provide plan participants with individualized, tailored investment advice or individualized, tailored asset allocation recommendations.

PARTICIPATION IN WRAP FEE PROGRAMS

DWMS offers portfolio management services to clients with a minimum investment of \$750,000 as the sponsor and portfolio manager of the Dominguez Wrap Fee Program. A wrap fee program is an investment management program that provides the client with advisory and brokerage execution services for an inclusive fee which incorporates charges for advisory services, custody, clearing, transaction execution and account reporting. For more information regarding the Program, including the fee schedule and other important considerations, clients should refer to Part 2A Appendix 1 of Form ADV: Wrap Fee Program Brochure.

ASSETS UNDER MANAGEMENT

As of March 29, 2022, DWMS was managing \$127,498,854.28 of client assets: \$121,824,387.82 on a discretionary basis and \$5,674,466.46 on a non-discretionary basis.

Item 5 Fees and Compensation

PORTFOLIO MANAGEMENT FEES

Our quarterly fees for Portfolio Management Services are based upon a percentage of assets under management according to the fee schedule below:

| ASSETS UNDER MANAGEMENT | First \$1,000,000 | Next \$1,000,001 - \$2,000,000 | Next \$2,000,001 - \$3,000,000 | Next \$3,000,001 - \$4,000,000 | Next \$4,000,001 - Beyond |
|-------------------------|-------------------|--------------------------------|--------------------------------|--------------------------------|---------------------------|
| QUARTERLY FEE | 0.3% | 0.25% | 0.2% | 0.15% | 0.1% |

DWMS will pay the ticket charges for all household accounts under management provided the combined household accounts total at least \$750,000. A household is considered to be a married couple only and does not include children, brothers, sisters, mother, father, or grandparents.

Our firm's fees are billed on a pro-rata basis quarterly in arrears based on the value of your account on the last day of the previous quarter.

Typically, these fees are debited directly from client accounts quarterly in arrears based upon the value (market value or fair market value in the absence of market value) of the account as of the last day of the quarter. In some circumstances, the client may elect to be billed directly for portfolio management services rendered. Alternatively, and upon mutual agreement, fees may be charged as a fixed or flat fee. If fees will be automatically deducted from a client's managed account, the client understands and acknowledges the following:

- a) Each time a fee is directly deducted from your account, we will concurrently send to your qualified custodian an invoice or statement of the amount of the fee to be deducted from your account;
- b) We will also concurrently send you an invoice or statement itemizing the fee, including the formula used to calculate the fee, the amount of assets under management the fee is based on, and the time period covered by the fee.
- c) Your independent custodian sends statements at least quarterly to you showing all disbursements for your account, including the amount of the advisory fees paid to us;
- d) You provide authorization permitting us to be directly paid by these terms.

FINANCIAL PLANNING FEES

Our Financial Planning fees are determined based on the nature of the services being provided and generally range from \$5,000 - \$20,000 for preparation of an initial financial plan. All fees are agreed upon prior to entering into a contract with the client.

We request a 50% deposit upon completion of our initial fact-finding session with the client.

Advance payment will never exceed \$1,200 for work that will not be completed within six months. The balance is due upon completion of the plan.

CONSULTING FEES

Our Consulting Services fees are calculated and charged on an hourly basis at a rate of \$225 per hour. An estimate for the total hours is determined at the start of the advisory relationship.

PENSION CONSULTING FEES

Our fees for Pension Consulting services are based upon a percentage of assets under our advisement and currently ranges from 0.50% to 1.25% based on the terms of each client's advisory contract. The exact percentage will be mutually agreed upon with the client and will depend on such variable as the size of the portfolio, frequency of reviews and preparation of reports, as well as the nature and complexity of the service.

Clients will be invoiced at the end of each calendar quarter based upon the value (market value or fair market value in the absence of market value), of the fund assets under advisement at the end of the previous quarter.

GENERAL INFORMATION

Termination of the Advisory Relationship: Clients may terminate the agreement without penalty within five (5) business days of entering into the agreement. Thereafter, a client agreement may be canceled at any time, by either party, for any reason upon receipt of 30 days written notice. As disclosed above, certain fees are paid in advance of services rendered. Under no circumstances do we require or solicit payment of fees in excess of \$1,200 more than six months in advance of services rendered. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. In calculating a client's reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period.

Mutual Fund Fees: All fees paid to DWMS for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge. A client could invest in a mutual fund directly, without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

Additional Fees and Expenses: In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians and imposed by broker dealers, including, but not

limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

ERISA Accounts: We are deemed to be a fiduciary to advisory clients that are employee benefit plans or individual retirement accounts (IRAs) pursuant to the Employee Retirement Income and Securities Act ("ERISA"), and regulations under the Internal Revenue Code of 1986 (the "Code"), respectively. As such, our firm is subject to specific duties and obligations under ERISA and the Internal Revenue Code that include among other things, restrictions concerning certain forms of compensation. To avoid engaging in prohibited transactions, we may only charge fees for investment advice about products for which our firm and/or our related persons do not receive any commissions or 12b-1 fees, or conversely, investment advice about products for which our firm and/or our related persons receive commissions or 12b-1 fees, however, only when such fees are used to offset our advisory fees.

Advisory Fees in General: Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar or lower fees.

Item 6 Performance-Based Fees and Side-By-Side Management

We do not charge performance-based fees.

Item 7 Types of Clients

Dominguez Wealth Management Solutions, Inc. provides advisory services to the following types of clients:

- Individuals
- High net worth individuals
- Pension and profit sharing plans
- Corporations or other businesses

We do not require a minimum account size to open or maintain an account.

Item 8 Methods of Analysis, Investment Strategies and Risk of Loss

METHODS OF ANALYSIS

We use the following methods of analysis in formulating our investment advice and/or managing client assets:

Charting. In this type of technical analysis, we review charts of market and security activity in

an attempt to identify when the market is moving up or down and to predict how long the trend may last and when that trend might reverse.

Fundamental Analysis. We attempt to measure the intrinsic value of a security by looking at economic and financial factors (including the overall economy, industry conditions, and the financial condition and management of the company itself) to determine if the company is underpriced (indicating it may be a good time to buy) or overpriced (indicating it may be time to sell).

Fundamental analysis does not attempt to anticipate market movements. This presents a potential risk, as the price of a security can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the stock.

Technical Analysis. We analyze past market movements and apply that analysis to the present in an attempt to recognize recurring patterns of investor behavior and potentially predict future price movement.

Technical analysis does not consider the underlying financial condition of a company. This presents a risk in that a poorly-managed or financially unsound company may underperform regardless of market movement.

Cyclical Analysis. In this type of technical analysis, we measure the movements of a particular stock against the overall market in an attempt to predict the price movement of the security.

Quantitative Analysis. We use mathematical models in an attempt to obtain more accurate measurements of a company's quantifiable data, such as the value of a share price or earnings per share, and predict changes to that data.

A risk in using quantitative analysis is that the models used may be based on assumptions that prove to be incorrect.

Qualitative Analysis. We subjectively evaluate non-quantifiable factors such as quality of management, labor relations, and strength of research and development factors not readily subject to measurement, and predict changes to share price based on that data.

A risk in using qualitative analysis is that our subjective judgment may prove incorrect.

Asset Allocation. Rather than focusing primarily on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash suitable to the client's investment goals and risk tolerance.

A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the client's goals.

Mutual Fund and/or ETF Analysis. We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in another fund(s) in the client's portfolio. We also monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the holding(s) less suitable for the client's portfolio.

Risks for all forms of analysis. Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly-available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information.

INVESTMENT STRATEGIES

We use the following strategy(ies) in managing client accounts, provided that such strategy(ies) are appropriate to the needs of the client and consistent with the client's investment objectives, risk tolerance, and time horizons, among other considerations:

Long-term purchases. We purchase securities with the idea of holding them in the client's account for a year or longer. Typically we employ this strategy when:

- we believe the securities to be currently undervalued, and/or
- we want exposure to a particular asset class over time, regardless of the current projection for this class.

Short-term purchases. When utilizing this strategy, we purchase securities with the idea of selling them within a relatively short time (typically a year or less). We do this in an attempt to take advantage of conditions that we believe will soon result in a price swing in the securities we purchase.

Short sales. We borrow shares of a stock for your portfolio from someone who owns the stock on a promise to replace the shares on a future date at a certain price. Those borrowed shares are then sold. On the agreed-upon future date, we buy the same stock and return the shares to the original owner. We engage in short selling based on our determination that the stock will go

down in price after we have borrowed the shares. If we are correct and the stock price has gone down since the shares were purchased from the original owner, the client account realizes the profit.

Margin transactions. We will purchase stocks for your portfolio with money borrowed from your brokerage account. This allows you to purchase more stock than you would be able to with your available cash, and allows us to purchase stock without selling other holdings.

Option writing. We may use options as an investment strategy. An option is a contract that gives the buyer the right, but not the obligation, to buy or sell an asset (such as a share of stock) at a specific price on or before a certain date. An option, just like a stock or bond, is a security. An option is also a derivative, because it derives its value from an underlying asset.

The two types of options are calls and puts:

- A call gives us the right to buy an asset at a certain price within a specific period of time. We will buy a call if we have determined that the stock will increase substantially before the option expires.
- A put gives us the holder the right to sell an asset at a certain price within a specific period of time. We will buy a put if we have determined that the price of the stock will fall before the option expires.

We will use options to speculate on the possibility of a sharp price swing. We will also use options to "hedge" a purchase of the underlying security; in other words, we will use an option purchase to limit the potential upside and downside of a security we have purchased for your portfolio.

We use "covered calls", in which we sell an option on security you own. In this strategy, you receive a fee for making the option available, and the person purchasing the option has the right to buy the security from you at an agreed-upon price.

We use a "spreading strategy", in which we purchase two or more option contracts (for example, a call option that you buy and a call option that you sell) for the same underlying security. This effectively puts you on both sides of the market, but with the ability to vary price, time and other factors.

Risk of Loss. Securities investments are not guaranteed and you may lose money on your investments. We ask that you work with us to help us understand your tolerance for risk. Investing in securities involves risk of loss that clients should be prepared to bear.

Item 9 Disciplinary Information

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

Our firm and our management personnel have no history of disciplinary events to disclose.

Item 10 Other Financial Industry Activities and Affiliations

Management persons of DWMS are separately licensed as registered representatives of Purshe Kaplan Sterling Investments, Inc. ("PKS"), an unaffiliated broker-dealer. However, they will not recommend that advisory clients of DWMS open a brokerage account with PKS. Management persons of DWMS maintain securities licenses with PKS for purposes of receiving trailing commissions from variable annuities and 529 plans, and to purchase non-traded REITs (Real Estate Investment Trusts). Under no circumstances will clients pay an advisory fee in addition to a commission for these types of investment vehicles.

Management persons of DWMS are also separately licensed as insurance agents for various insurance companies and can sell insurance products for separate, yet customary compensation.

DWMS also provides tax planning and preparation services. These services are separate and distinct from DWMS's investment advisory services and are provided for separate and typical compensation. No DWMS client is obligated to use DWMS for any tax planning or preparation services and conversely, no client who has engaged DWMS for tax planning or preparation services is obligated to use the investment advisory services provided by DWMS.

Clients should be aware that the receipt of additional compensation by DWMS and its management persons or employees creates a conflict of interest that may impair the objectivity of our firm and these individuals when making recommendations. DWMS endeavors at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser. We take the following steps to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for our firm and our employees to earn compensation from advisory clients in addition to our firm's advisory fees;
- we disclose to clients that they are not obligated to purchase recommended investment products from our employees or affiliated companies;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- we conduct regular reviews of each client account to verify that all recommendations made to a client are suitable to the client's needs and circumstances;
- we require that our employees seek prior approval of any outside employment activity so that we may ensure that any conflicts of interests in such activities are properly

- addressed;
- we periodically monitor these outside employment activities to verify that any conflicts of interest continue to be properly addressed by our firm; and
 - we educate our employees regarding the responsibilities of a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

DWMS and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

DWMS's Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to jeffrey.dominguez@dominguezwms.com, or by calling us at (757) 645-9252.

DWMS and individuals associated with our firm are prohibited from engaging in principal transactions.

DWMS and individuals associated with our firm are prohibited from engaging in agency cross transactions.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

As disclosed in the preceding section of this Brochure (Item 10), Mr. Dominguez is separately licensed as an insurance agent/broker of various insurance companies. Please refer to Item 10 for a detailed explanation of these relationships and important conflict of interest disclosures.

Item 12 Brokerage Practices

We do not have any soft-dollar arrangements and do not receive any soft-dollar benefits.

DWMS participates in the institutional advisor program (the “Program”) offered by TD Ameritrade Institutional. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC/NFA (“TD Ameritrade “), an unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade offers to independent investment advisors services which include custody of securities, trade execution, clearance and settlement of transactions. DWMS receives some benefits from TD Ameritrade through its participation in the Program.

As disclosed above, DWMS participates in TD Ameritrade’s institutional customer program and DWMS may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between DWMS’s participation in the program and the investment advice it gives to its Clients, although DWMS receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving DWMS participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to DWMS by third party vendors. TD Ameritrade may also have paid for business consulting and professional services received by DWMS’s related persons. Some of the products and services made available by TD Ameritrade through the program may benefit DWMS but may not benefit its Client accounts. These products or services may assist DWMS in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are

intended to help DWMS manage and further develop its business enterprise. The benefits received by DWMS or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, DWMS endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by DWMS or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the DWMS's choice of TD Ameritrade for custody and brokerage services.

Directed Brokerage: As our firm does not have the discretionary authority to determine the broker-dealer to be used or the commission rates to be paid, clients must direct DWMS as to the broker-dealer to be used. In directing the use of TD Ameritrade, it should be understood that we will not have authority to negotiate commissions or to necessarily obtain volume discounts, and best execution may not be achieved. We have evaluated TD Ameritrade and believe that it can provide our clients with a blend of execution services, commissions and professionalism that will assist our firm in meeting our fiduciary obligations to clients.

We reserve the right to decline acceptance of any client account for which the client directs the use of a broker other than TD Ameritrade if we believe that this choice would hinder our fiduciary duty to the client and/or our ability to service the account. Clients should note, while we have a reasonable belief that TD Ameritrade is able to obtain best execution and competitive prices, our firm will not be independently seeking best execution price capability through other brokers. Not all advisers require clients to direct use of a particular broker-dealer.

BEST EXECUTION

Obtaining best execution for our clients is an important aspect of our fiduciary duty. Consequently, we have controls in place to monitor trade executions. We review the quality of services provided by TD Ameritrade including the accuracy and speed of execution, commission rates, transaction fees, reputation and integrity, reporting, fairness in resolving disputes, financial responsibility and responsiveness. Although the commissions and/or transaction fees paid by our clients generally comply with our duty to obtain best execution, clients may pay a commission that is higher than what another qualified broker-dealer might charge to effect the same transaction when we determine, in good faith, that the commission or transaction fee is reasonable in relation to the value of the brokerage and research services we receive from TD Ameritrade. In seeking best execution, the determinative factor is not the lowest possible cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of a broker-dealer's services, including the value of research provided, execution capability, commission rates, and responsiveness. Best execution is also about pricing, not just fees. Accordingly, although we seek competitive rates, we may not necessarily obtain the lowest possible commission rates for client transactions. The brokerage commissions or transaction fees charged by the broker-dealer are exclusive of, and in addition to, our investment management fee. Our best execution responsibility is qualified if the securities we purchase are no-load mutual funds that are traded at net asset value as determined at the daily market close.

Item 13 Review of Accounts

PORTFOLIO MANAGEMENT

REVIEWS: While the underlying securities within Individual Portfolio Management Services accounts are continually monitored, these accounts are reviewed at least quarterly. Accounts are reviewed in the context of each client's stated investment objectives and guidelines. More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment. At least annually, we meet with the client (either in person or over the phone) to review and update, as necessary, the client's investment profile. However, should there be any material change in the client's personal and/or financial situation, we should be notified immediately to determine whether any review and/or revision of the client's investment profile is warranted. All clients receive account statements from their custodian on a monthly basis. Additionally, we provide clients with quarterly performance measurement summary reports and monthly account statements.

These accounts are reviewed by Jeffrey Dominguez, President and Patrick Schultz, Chief Investment Officer.

REPORTS: Clients will receive written monthly statements and confirmations of transactions from their broker-dealer/custodian. DWMS will also provide clients with written monthly statements and confirmation of transactions, and on a quarterly basis clients will receive reports summarizing account performance.

FINANCIAL PLANNING SERVICES

REVIEWS: While reviews may occur at different stages depending on the nature and terms of the specific engagement, typically no formal reviews will be conducted for Financial Planning clients unless otherwise contracted for. Reviews will be conducted by Jeffrey Dominguez, President and Patrick Schultz, Chief Investment Officer.

REPORTS: Financial Planning clients will receive a completed written financial plan. Additional reports will not typically be provided unless otherwise contracted for.

PENSION CONSULTING SERVICES

REVIEWS: Accounts are reviewed for consistency with client investment strategy, asset allocation, risk tolerance and performance relative to the appropriate benchmark (as outlined in each client's IPS). Significant geopolitical and macroeconomic events may also trigger reviews. We will also review client investment policy statements whenever clients indicate a change in circumstances regarding the needs of the plan. Such reviews will generally occur quarterly. Reviews will be conducted by Jeffrey Dominguez, President and Patrick Schultz, Chief Investment Officer.

REPORTS: Employee Benefit Retirement Plan clients generally receive statements only from their account custodian.

Item 14 Client Referrals and Other Compensation

Our firm does not receive any additional compensation from third parties for providing investment advice to clients and does not compensate anyone for client referrals.

Item 15 Custody

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm directly debits advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

Item 16 Investment Discretion

Clients may hire us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission.

Our discretionary authority includes the ability to do the following without contacting the client:

- Determine the security to buy or sell; and/or
- Determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this authority by giving us written instructions. Clients may also change/amend such limitations by once again providing us with written instructions.

Item 17 Voting Client Securities

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections

relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets.

We do not offer any consulting assistance regarding proxy issues to clients.

Item 18 Financial Information

As an advisory firm that maintains discretionary authority for client accounts, we are also required to disclose any financial condition that is reasonably likely to impair our ability to meet our contractual obligations. DWMS has no such financial circumstances to report.

Under no circumstances do we require or solicit payment of fees in excess of \$1,200 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

Dominguez Wealth Management Solutions, Inc. has not been the subject of a bankruptcy petition at any time during the past ten years.
